METHODICA'2022
March 22 – 24, 2022 – Hammamet, Tunisia

	Tuesday 22 March 2022	Wednesday 23 March 2022	Thursday 24 March 2022
09:00-09:35		Abdessamad Saidi Model Transformation and Verification of IoT Architecture	Said Taktak Data Warehouse Evolution: Review & Proposal
09:35-10:10		Zayneb Mannai Study of annotation systems in the e-health domain	Rawya Mars A survey on smart contract generation
10:10-10:45		Khalil Chehab Intelligent Healthcare Annotation Systems	Emna Taktak A COVID-19 detection algorithm with the Local Computations model for Wireless Sensor Networks (LC-WSN)
10:45-11:15		Coffee Break	Coffee Break
11:15-11:50		Amal Abid Modelling and Execution of Time-aware Processes in Blockchain Environment	Mayara Khadhraoui To a new approach for BERT-Base models improvement
11:50-12:25		Nour Neifar ECG Synthesis Using Anchored Generative Adversarial Networks	Abir Masmoudi A hierarchical multi-label classification approach of research papers
12:25-13:00		Houssem Aloulou Behavior change approach for promoting physical activity among older adults	Mouna Rhaiem Implementing in the smart city System-of-Systems the air quality service as a system **Closing**
13:00-13:10		Lunch	Lunch
13:00-14:30		Lunch	Lunch
15:00-15:30	Registration & Opening		
15:30-16:00	Mohamed Jmaiel Présentation du bilan de l'année 2021		
16:00-17:00	Sana Rekik, Sihem Loukil, Lamia Ben Amor, Mohamed Jmaiel, Rayhane Koubaa H2020 BETTEReHEALTH		
17:00-17:35	Rim Ben Fekih Towards Model checking approach for Smart contract validation in the EIP-1559 Ethereum		
17:35-18:00	Amal Mateur Automated Process of Linear Curve Fitting to the Gumbel Distribution by Using Different Mathematical Methods		

METHODICA'2022

March 22 – 24, 2022 – Hammamet, Tunisia

Program		
Tuesday 22 March 2022		
15:00-15:30		Registration & Opening
Session chair: Prof. Mohamed Jmaiel		
15:30-16:00		Mohamed Jmaiel Présentation du bilan de l'année 2021
16:00-17:00		Sana Rekik, Sihem Loukil, Lamia Ben Amor, Mohamed Jmaiel, Rayhane Koubaa H2020 BETTEReHEALTH
17:00-17:35		Rim Ben Fekih Towards Model checking approach for Smart contract validation in the EIP-1559 Ethereum
17:35-18:00		Amal Mateur Automated Process of Linear Curve Fitting to the Gumbel Distribution by Using Different Mathematical Methods
Wednesday 23 March 2022		
Session chair: Prof. Ahmed Hadj Kacem		
09:00-09:35		Abdessamad Saidi Model Transformation and Verification of IoT Architecture
09:35-10:10		Zayneb Mannai Study of annotation systems in the e-health domain
10:10-10:45		Khalil Chehab Intelligent Healthcare Annotation Systems
10:45-11:15		Coffee Break
Session chair: Prof. Hatem Hadj Kacem		
11:15-11:50		Amal Abid Modelling and Execution of Time-aware Processes in Blockchain Environment
11:50-12:25		Nour Neifar ECG Synthesis Using Anchored Generative Adversarial Networks
12:25-13:00		Houssem Aloulou Behavior change approach for promoting physical activity among older adults
13:00-14:30		Lunch
Thursday 24 March 2022		

Session chair: Prof. Slim Kallel		
09:00-09:35		Said Taktak Data Warehouse Evolution: Review & Proposal
09:35-10:10		Rawya Mars A survey on smart contract generation
10:10-10:45		Emna Taktak A COVID-19 detection algorithm with the Local Computations model for Wireless Sensor Networks (LC-WSN)
10:45-11:15		Coffee Break
Session chair: Prof. Torjmen Mouna		
11:15-11:50		Mayara Khadhraoui To a new approach for BERT-Base models improvement
11:50-12:25		Abir Masmoudi A hierarchical multi-label classification approach of research papers
12:25-13:00		Mouna Rhaiem Implementing in the smart city System-of-Systems the air quality service as a system
13:00-13:10		**Closing**
13:00-14:30		Lunch
